REVEZ CORPORATION KICKS OFF PARTNERSHIP WITH SUCCESSFUL CUSTOMER ADOPTION FOR AI-DRIVEN CYBERSECURITY PLATFORM, DIGITAL.AI

A major customer win from public sector comes after the newly-signed distributorship agreement with Digital.ai, an intelligent value stream management company.

Singapore, 3 June 2021 – Leading B2B technology group, [REVEZ Corporation Ltd](#) announced that its subsidiary, [REVEZ Motion](#) has secured a Software-as-a-Service (SaaS) contract order with a customer in the public sector to provide AI-driven cybersecurity solutions for DevOps. REVEZ Motion will offer technical expertise and comprehensive product trainings on the [Digital.ai](#) platform to enable customers to meet fast-growing demands of cyber defence.

This comes after a recent distributorship agreement signed between REVEZ Motion and [Digital.ai](#), which enables REVEZ Motion's customers access to industry-leading technologies offered by [Digital.ai](#) in enterprise agile planning, application security, continuous delivery and release orchestration, and continuous testing alongside the strengths of REVEZ Motion in professional digital consulting and IT services. REVEZ Motion's role in the partnership will be to provide large enterprises with streamlined access to [Digital.ai](#)'s AI/ML-driven value stream management solutions, enabling customers to grow revenue across the entire development lifecycle, as well as speed up the delivery of their software while ensuring security and reliability during development.

"This big win demonstrates how quickly SaaS opportunities can manifest from the strong relationships we maintain with existing customers. All our cybersecurity solutions feature AI-powered technology, which are considered critical to cybersecurity on a national scale. We will continue to provide our customers the same exceptional service they have come to expect, and actualise the full potential of the booming cybersecurity sector," said Mr. Victor Neo, Deputy Board Chairman and Group CEO of REVEZ Corporation Ltd.

"We are excited to make our platform and solutions available to REVEZ Motion's growing customer base," states Mr. Jose Pena, Vice President of Sales for Asia-Pacific for [Digital.ai](#). "As we learned more about REVEZ's digital solutions and discovered the ways our solutions can add value for REVEZ customers, it became apparent this strategic partnership will enable customers from public and private

sectors to align their cybersecurity and DevOps value streams to reap the full benefits of their digital transformation initiatives.”

With the accelerated demand in digital innovations, REVEZ Motion continues to grow innovative security capabilities and turnkey solutions for enterprises to modernise their cybersecurity infrastructure and sharpen their digital capabilities.

-End-

About REVEZ Corporation Ltd.

REVEZ Corporation Ltd. is a CreativeTech group incorporating innovators, technologists and creative capabilities to drive enterprise and consumer value across its 7 business segments. Leveraging their network of Fortune 500 partners and industry experts, they are known for their expertise in Immersive Multimedia, Information and Communications Technology (ICT), Cybersecurity, Deep Tech - specialising in Artificial Intelligence (AI), Internet of Things (IoT), Smart Integrated Spaces, Industrial Automation and Digital Media Networks.
